Sowing Instructions

Sow in pots from late March under cover with warmth from a propagator.

You can also pop the seed tray in a plastic bag and tie it off with an elastic band. Can then transplant the seedlings outside in a sunny position in the garden.

Ensure you grow them on outside once the threat of frost has passed and the ground has warmed.

Days to harvest to maturity

85-95 days.

Tips

Loves the sun but will need regular watering to continue to thrive.
